kblack@premierfundingservice.com**DR. MARK PRAUSNITZ JOINS APOGEE'S
MEDICAL ADVISORY BOARD**

NORWOOD, Mass. (January 23, 2007) — Apogee Technology, Inc. (AMEX: ATA), an emerging micro-systems and nanotechnology company that designs, develops and commercializes medical devices and sensor products, reported today that Dr. Mark Prausnitz has joined the Company's Medical Advisory Board. Dr. Prausnitz is a Professor of Chemical and Biomedical Engineering and the Emerson-Lewis Faculty Fellow at the Georgia Institute of Technology. Dr. Prausnitz's research interests concern microneedles and other microfabricated devices for drug delivery across the skin and into the eye, as well as novel uses of ultrasound and related physical phenomena to enhance and target intracellular delivery.

Dr. Alexander Andrianov, Apogee's Vice President of Research and Development, said, "Dr. Prausnitz is one of the leading researchers in the area of microneedle drug delivery. His expertise covers not only the design and fabrication of microneedles, but encompasses basic questions of drug transport, insertion mechanics of microneedles in skin along with applied questions relating to drug and vaccine delivery. We are extremely excited to have him join our team to support the commercialization of our PyraDerm™ and other transdermal delivery solutions for FDA regulated and non regulated applications."

Dr. Prausnitz received the CAREER Young Investigator Award from the National Science Foundation; Young Investigator Award, Outstanding Pharmaceutical Paper Award and Outstanding Transdermal Drug Delivery Award from the Controlled Release Society; Curtis W. McGraw Research Award from the American Society for Engineering Education; and TR100 Young Innovator from Technology Review. Dr. Prausnitz has a B.S. (1988) from Stanford University and a Ph.D. (1994) from Massachusetts Institute of Technology. He has published more than 80 research articles, holds 15 issued or pending patents, consults for a number of companies, and serves as an expert witness.

About Apogee Technology, Inc.

Apogee Technology designs, develops and commercializes proprietary medical device and sensor products using its MEMS and nanotechnology for the medical, automotive, industrial and consumer markets. The Company is developing its PyraDerm™ solution for enhanced intradermal drug delivery and has introduced a family of pressure sensors under the Sensilica® brand. Apogee's goal is to provide value-added and cost-saving solutions for our customers and, in so doing, become a global leader in the sensor and medical device fields. For more information please visit our web site at: <http://www.apogeemems.com>.
